PAIRING TO MULTIPLE DEVICES

3SIXT Bluetooth Studio Earbuds support multi-point technology, which allows you to connect them to two different Bluetooth enabled devices simultaneously.

1. Follow the initial pairing instructions previously outlined on the first device you would like to pair – ‘Device 1’.
2. Turn off the Bluetooth Studio Earbuds. Now follow the pairing instructions to connect the Earbuds to the second device – ‘Device 2’.
3. Select ‘3SIXT-M777’ from the Bluetooth device list on ‘Device 1’ to finish the multi-point connection.

If ‘Device T’ is on a call, and a call comes in on ‘Device Z’, press the Multi-Function Button ( ), to answer the ‘Device Z’ call and put the ‘Device T’ on hold. You can switch between the two calls by double pressing the MFB ( ).

GENERAL OPERATION

Power on: Separate the two Earbud blanks
Power off: Join the two Earbud blanks together
Play: Press the Multi-Function Button (MFB) once for 5 seconds (when ON)
Factory reset: Press the MFB for 5 seconds (when charging)

SAFE USE WARNING

Due to the isolating characteristics of these Bluetooth Studio Earbuds do not use while driving, riding a bike or where vehicular traffic is present, or in any other activity where failure to hear surrounding sounds could be dangerous. Use of these Earbuds at excessive volumes may cause permanent hearing damage. Always turn the volume down before use. Take caution in regards to inserting objects into ear canal and use at own risk.

Geting to know your Bluetooth Studio Earbuds

Charging your Bluetooth Studio Earbuds

1. Insert the supplied Micro USB Cable (Micro USB end) into Bluetooth Studio Earbuds 5V input port (5).
2. Insert USB end of cable into the USB 2.0 port of your 110/240V adaptsator, laptop or PC.
3. The LED Indicator (d) will turn red when charging, then blue when fully charged. The indicator light will flash red when the battery level is low, and there will be a voice prompt. If left unused for 3 months, a fully charged battery will lose its charge.

Pairing your Bluetooth Studio Earbuds

Within working range (up to 10m), the Bluetooth Studio Earbuds will automatically par to your device when Bluetooth is enabled and the Earbuds are separated ('ON' position). This will be confirmed by the Voice Prompt saying "Phone X connected".

If the 3SIXT Bluetooth Studio Earbuds are left separated for over 3 minutes without music playback or calls, it will enter 'standby mode' to save battery life. In 'standby mode' you can change calls or reemerge music playback by pressing the MFB for the required operation (see Music/ Call Operation table). Disconnect the Earbuds from your device to return your device to normal functionality.

Standby mode

GETTING TO KNOW YOUR BLUETOOTH STUDIO EARBUDS

CHARGING YOUR BLUETOOTH STUDIO EARBUDS

1. Insert the supplied Micro USB Cable (Micro USB end) into Bluetooth Studio Earbuds 5V input port (5).
2. Insert USB end of cable into the USB 2.0 port of your 110/240V wall adaptor, laptop or PC.
3. The LED Indicator (d) will turn red when charging, then blue when fully charged.

The indicator light will flash red when the battery level is low, and there will be a voice prompt.

If left unused for 3 months, a fully charged battery will lose its charge.

TURNING ON & PAIRING YOUR BLUETOOTH STUDIO EARBUDS for the first time

1. Ensure your Bluetooth Studio Earbuds are fully charged and separate the Bud Backs from each other to enter ‘standby/ON’ mode. The Voice Prompt will say “Power On”.
2. Once ON, press the Multi-Function Button (MFB) (a) for 5 seconds to put the Bluetooth Studio Earbuds into ‘pairing mode’ with your device. ‘Pairing mode’ is evident if the LED Indicator (d) will turn red when charging, then blue when fully charged. If the 3SIXT Bluetooth Studio Earbuds are left separated for over 3 minutes without music playback or calls, it will enter ‘standby mode’ to save battery life. In ‘standby mode’ you can make and receive calls or reinstate music playback by pressing the MFB for the required operation (see Music/ Call Operation table). Disconnect the Earbuds from your device to return your device to normal functionality.

PAIRING YOUR BLUETOOTH STUDIO EARBUDS every time after

Within operating range (up to 10m), the Bluetooth Studio Earbuds will automatically pair to your device when Bluetooth is enabled and the Earbuds are separated (ON position). This will be confirmed by the Voice Prompt saying “Phone X connected”.

STANDBY MODE

If the 3SIXT Bluetooth Studio Earbuds are left separated for over 3 minutes without music playback or calls, it will enter ‘standby mode’ to save battery life. In ‘standby mode’ you can make and receive calls or reinstate music playback by pressing the MFB for the required operation (see Music/ Call Operation table). Disconnect the Earbuds from your device to return your device to normal functionality.

READ FIRST SAFETY & CARE INFORMATION

- Use 3SIXT Bluetooth Studio Earbuds for its intended purpose only. It is not a toy. Parental supervision is required for children under 10 years old.
- Avoid excessive volume levels and prolonged periods of listening. Do not use around road traffic.
- Do not drop, knock, disassemble or attempt to repair 3SIXT Bluetooth Studio Earbuds.
- Do not immerse or put 3SIXT Bluetooth Studio Earbuds in water and keep 3SIXT Bluetooth Studio Earbuds in a cool, dry place and protect from dust.
- Do not expose 3SIXT Bluetooth Studio Earbuds to excessive heat including sunlight and fire. Do not burn or incinerate 3SIXT Bluetooth Studio Earbuds or expose to extreme temperatures (<0° or >45°).
- Wipe 3SIXT Bluetooth Studio Earbuds with a clean soft cloth. Do not use chemicals or detergents to clean any part of 3SIXT Bluetooth Studio Earbuds. Doing so may discolor or corrode the materials.

For more information and support visit www.3sixtgear.com/support
3. SIXT-M777 should then appear on the Bluetooth device list on your smartphone, tablet or computer. Press/click it and the Voice Prompt will say "Phone X connected" when pairing has been achieved.
